Test Specification

Test Project: QA36
Test Suite: QA36 - PipanTunde - https://www.orasulbalan.ro/en/

Table Of Contents

QA36-494: [Login] Validate that the login isn't possible with invalid username and password

QA36-495: [Login] Validate that the login isn't possible with valid username and no password

QA36-496: [Login] Validate that the login isn't possible with a password and no username

QA36-497: [Login] Validate that the login isn't possible using invalid credentials

QA36-498: [Login] Validate that the login isn't possible with valid username and invalid password

QA36-505: [Login] User validates that the 'Remember me' functionality is working

QA36-506: [Login] User validates that the password field is secured

QA36-507: [Login] User validates that the 'Sign up' hyperlink is working

QA36-1196: [Login] Validate that the 'Username' lenght can't exceed 150 characters

QA36-3253: [Login] Validate that the user can perform payments on the city hall webpage

1.1.3.Forgot Password

QA36-499: [Password Reset] User validates that the "Forgot Password" hyperlink is working

QA36-500: [Password Reset] User validates that pressing the 'E-mail' input displays the correct keyboard

QA36-501: [Password Reset]Validate that the user can't reset the password without filling the "E-mail" field

QA36-502: [Password Reset]Validate that the user can't reset the password with an invalid email

QA36-503: [Password Reset]Validate that the user can reset password using a valid e-mail address

QA36-504: [Password Reset] User validates that the recovery mail has been sent to the email address

1.1.4.Hero

QA36-698: [Hero] Validate the functionality of the video player

QA36-776: [Hero] Validate that the user can access the 'Primaria' page

QA36-779: [Hero] Validate that the user can access the 'Documente Publice' page

QA36-1040: [Hero] Validate that the user can access the 'Comunitate' page

QA36-1971: [Hero] Validate that the 'Primaria orasului' webpage displays the right content

1.1.5.Header

QA36-715: [Header] Validate that the Burger menu icon displays the main menu when clicked

QA36-718: [Header] Validate that the social media icon redirects the user to the city hall facebook page

QA36-1043: [Header] Validate that the pressing on the city hall logo the user is redirected to the landing page

QA36-717: [Header] Validate that the expanded submenu can be collapsed by pressing the up arrow icon

QA36-716: [Header] Validate that the expandable submenu can be expanded by pressing the arrow icon

QA36-780: [Header] Validate that the user can download pdf files from the 'Documente publice' webpage

QA36-781: [Header]Validate that the logo from 'Documente Publice' section redirects the user to the Home page

QA36-785: [Header] Validate that the user can see public documents

1.1.6.News

QA36-894: [News] Validate that the user can access the news section

QA36-898: [News] Validate that each news has a precise date

QA36-900: [News] Validate that the user can see all the news

QA36-904: [News] Validate that the user can access the documents from the news section

QA36-905: [News] Validate that the news entries are displayed in a chronological order

1.1.7.Resources

1.1.7.1.Taxe si impozite

QA36-907: [Taxe si impozite] Validate that the user can access the 'Taxe si impozite' webpage

QA36-1285: [Taxe si impozite] Validate that the 'Taxe si impozite' section has it's own unique icon

QA36-1046: [Taxe si impozite] Validate that the user can see the payment methods on the city hall page

QA36-908: [Taxe si impozite] Validate that the user can access the city hall bank account numbers

QA36-1052: [Taxe si impozite] Validate that the user can access the 'Sume restante' page

1.1.7.2.Serviciu urbanism

QA36-910: [Serviciul urbanism] Validate that the user can access the ' Serviciu Urbanism' webpage

QA36-1286: [Serviciul urbanism] Validate that the 'Serviciul urbanism' section has it's own unique icon

1.1.7.3.Serviciul locativ

QA36-911: [Serviciul locativ] Validate that the user can access the 'Serviciul locativ' webpage

QA36-1287: [Serviciul locativ] Validate that the 'Serviciul locativ' section has it's own unique icon

1.1.7.4.Informatii publice

QA36-915: [Informatii publice] Validate that the user can access the 'Informatii publice' webpage

QA36-1288: [Informatii publice] Validate that the 'Informatii publice' section has it's own icon

QA36-983: [Informatii publice] Validate that the user can download the building permit document

QA36-984: [Informatii publice] Validate that the user can access the employee assets

QA36-986: [Informatii publice] Validate that the user can access the urban planing certificate

QA36-2622: [Informatii Publice] Validate that the user can access the 'Transparenta' webpage from the main menu

1.1.7.5.Hotarari de consiliu

QA36-917: [Hotarari consiliu] Validate that the user can access the 'Hotarari de consiliu' webpage

QA36-1289: [Hotarari consiliu] Validate that the 'Hotarari de consiliu' section has it's own icon

1.1.7.6.Alegeri locale

QA36-918: [Alegeri locale] Validate that the user can access the 'Alegeri locale' webpage

QA36-1290: [Alegeri locale] Validate that the 'Alegeri locale' section has it's own unique icon

1.1.8.Calendar

QA36-826: [Calendar] Validate that the user can select the day from the calendar

QA36-783: [Calendar] Validate that the user can see all upcoming events

QA36-825: [Community] Validate that the user can switch from one month to another using the previous button

QA36-824: [Community] Validate that the user can switch from one month to another month using the next button

1.1.9.Poll

QA36-743: [Poll] Validate that the user can select only one option from the 'Poll' section

QA36-744: [Poll] Validate that the 'Vote' button submits the poll

QA36-745: [Poll] Validate that the user can see the poll results

1.1.10.Contact

QA36-1044: [Contact] Validate that the user can access the city hall contact page

QA36-998: [Contact] Validate that email links trigger email creation on mobile device

1.1.11.Footer

QA36-739: [Footer] Validate that the user can access the GDPR page

QA36-740: [Footer] Validate that the user can access the ' Politica Cookie' page

QA36-741: [Footer] Validate that the user can access the 'Termeni si conditii' page

QA36-742: [Footer] Validate that the scroll to top button is functional

1.2.Smoke testing

QA36-2631: 20230128-15:01:07 [Hero] Validate the functionality of the video player

QA36-2626: 20230128-14:57:37 [Sign up]User validates the sign up using valid data

QA36-2627: 20230128-14:58:55 [Login] User validates that the 'Remember me' functionality is working

QA36-2630: 20230128-15:00:42 [Password Reset] User validates that the "Forgot Password" hyperlink is working

QA36-2632: 20230128-15:02:01 [Header] Validate that the Burger menu icon displays the main menu when clicked

QA36-2633: 20230128-15:02:35 [News] Validate that the user can access the news section

QA36-2635: 20230128-15:04:09 [Informatii publice] Validate that the user can access the employee assets

QA36-2636: 20230128-15:04:59 [Calendar] Validate that the user can select the day from the calendar

QA36-2637: 20230128-15:05:23 [Poll] Validate that the 'Vote' button submits the poll

QA36-2638: 20230128-15:05:53 [Contact] Validate that email links trigger email creation on mobile device

QA36-2639: 20230128-15:06:26 [Footer] Validate that the scroll to top button is functional

1.3.Compatibility Testing

QA36-1053: [Compatibility] Validatet the functionality of the player using Firefox browser

QA36-1054: [Compatibility] Validate the functionality of the player using Safari browser

QA36-1055: [Compatibility] Validate the functionality of the player using Google Chrome browser

QA36-1930: [Compatibility]Validate that the website can be accessed on landscape mode on Android mobile devices

QA36-1931: [Compatibility]Validate that the website can be accessed on portrait mode on Android mobile devices

QA36-1948: [Compatibility]Validate that the website can be accessed on landscape mode on iOS mobile devices

QA36-1950: [Compatibility]Validate that the website can be accessed on portrait mode on iOS mobile devices

QA36-1964: [Compatibility] Validate that the user can access the webpage using Linux OS

QA36-1965: [Compatibility] Validate that the user can access the webpage using Windows OS

QA36-1967: [Compatibility] Validate that the user can access the webpage using Mac OS

1.4.Performance Testing

QA36-1291: [Performance]Validat that the page load time is between 0-2s when accessed by one user

QA36-1292: [Performance]Page load time is between 0-2s when accessed simultaneously by 10 users

QA36-1293: [Performance]Page load time is between 0-2s when accessed simultaneously by 100 users

1.5.Localization testing

QA36-1042: [Translation menu] Validate that the user can see the Romanian translated content on the webpage

QA36-996: [Translation menu] Validate that the user can see the English translated content on the webpage

QA36-995: [Translation menu] Validate that the user can see the Hungarian translated content on the webpage

1.Test Suite : PipanTunde - https://www.orasulbalan.ro/en/

1.1.Test Suite : Functional testing

1.1.1.Test Suite : Sign Up

Test Case QA36-642: [Sign up]User validates that the 'sign in' hyperlink is working [Version : 1]

Author:	tunde.pipan	
Preconditions:		
The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1		
#:	Step actions:	Expected Results:
1	The user presses on the 'Sign in' hyperlink	The user is redirected to the 'Sign in' page
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-648: [Sign up] Validate that each input element has a label next to it [Version : 1]

Author:	tunde.pipan	
Preconditions:		
The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1		
#:	Step actions:	Expected Results:
1	The user verifies if all input element has a label next to it	All input element has a label next to it.
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-649: [Sign up]User validates the sign up using valid data [Version : 1]

Author:	tunde.pipan	
Preconditions: The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1 The user introduced valid data in the 'E-mail', 'Username', 'Full name', 'CNP','Password', 'Password (Again)' fields		
#:	Step actions:	Expected Results:
1	The user selects a customer type from the dropdown list	The customer type is selected
2	The user presses on the hCaptcha checkbox	The hCaptcha window is shown
3	The user follnd sellects the images ows the requirement	The required images are sellected
4	The user presses on the 'Sign up' button	The 'Sign up' is successful
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-650: [Sign up]User validates that the registration isn't possible with incomplete data [Version : 1]

Author:	tunde.pipan	
Preconditions: The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN IN" page on Iphone 11, iSO Version 16.1.1		
#:	Step actions:	Expected Results:
1	The user introduces valid data to the 'E-mail' field	The 'E-mail' field contains a valid e-mail address
2	The user presses on the 'Sign up' button	A tool tip with the text : 'Please fill out this field' is shown to the user next to the 'Full name' input.
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-652: [Sign up]Validate that the sign up isn't possible using an invalid E-mail address [Version : 1]

Author:	tunde.pipan
Preconditions:	

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

All fields are compleated with valid data except the 'E-mail' field

#:	Step actions:	Expected Results:
1	The user introduces an invalid e-mail address	The 'E-mail' input contains an invalid e-mail address
2	The user presses the 'Sign up' button	A tool tip with the text : 'Enter an email address'is shown to the user next to the 'E-mail' input.

Execution type:	Manual
Estimated exec. duration (min):	
Importance:	Medium
Requirements	None
Keywords:	None

Test Case QA36-654: [Sign up]Validate that username and the email can contain the same data [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/ro/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

All fields are compleated with valid data except the 'E-mail' and the 'Username' field.

#:	Step actions:	Expected Results:
1	The user introduces a valid e-mail addres in the 'E-mail' field	The introduced data is shown
2	The user introduces the same e-mail address in the 'Username' field	The introduced data is shown
3	The user presses the 'Sign up' button	No error message. The user is redirected to compleate the next step 'Full name'

Execution type:	Manual
Estimated exec. duration (min):	
Importance:	Medium
Requirements	None
Keywords:	None

Test Case QA36-656: [Sign up]User validates that he can chose the "Customer Type" using the dropdown [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/ro/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

#:	Step actions:	Expected Results:
1	The user presses on the 'Customer type' dropdown	The dropdown list is shown on screen
2	The user selects the 'Juridic' from the dropdown list	The Customer type is shown: 'Juridic'
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-658: [Sign up]Validate that user can not register with an invalid CNP [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

All fields are compleated with valid data except the 'CNP' field

#:	Step actions:	Expected Results:
1	The user introduces invalid data in the 'CNP' field	The 'CNP' field contains invalid data
2	The user presses the 'Sign up' button	An error message is shown on screen: 'Invalid CNP!' . The user is redirected to the 'CNP' field
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-660: [Sign up]Validate that the sign up isn't posible using less than 8 characters for the password field [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

All fields are compleated with valid data except the two 'Password' field

#:	Step actions:	Expected Results:

1	The user introduces less than 8 character in the 'Password' field	The 'Password' field contains less than 8 characters
2	The user introduces the same password in the 'Password(Again)' field	The two 'Password' field contains the same credentials
3	The user presses the 'Sign up' button	An error message is displayed: 'This password is too short. It must contain at least 8 characters.' The user is redirected to introduce an other password

Execution type:	Manual
Estimated exec. duration (min):	
Importance:	Medium
Requirements	None
Keywords:	None

Test Case QA36-661: [Sign up]Validate that the sign up is possible if the values in the Password fields match [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the ''SIGN UP'' page on Iphone 11, iSO Version 16.1.1

All fields are compleated with valid data except the two 'Password' field

#:	Step actions:	Expected Results:
1	The user introduces valid data in the 'Password' field	The 'Password' field is copleated with valid data
2	The user introduces the same data in the 'Password(Again)'	The two 'Password' field contains the same credentials
3	The user presses the 'Sign up' button	The sign up is succesfull

Execution type:	Manual
Estimated exec. duration (min):	
Importance:	Medium
Requirements	None
Keywords:	None

Test Case QA36-662: [Sign up]Validate that the sign up isn't possible if the values in the Password fields do not match [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "Sign up" page on Iphone 11, iSO Version 16.1.1

The user compleatetd all the fields except the two 'Password' field .

#:	Step actions:	Expected Results:
1	The user introduces valid data in the 'Password' field	The 'Password' field is copleated with valid data
2	The user introduces a different password in the 'Password(Again)' filed	The two inputs contains different credentials
3	The user presses the 'Sign up' button	An error mesage is displayed: 'You must type the same password each time' The user is redirected to introduce an other password
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-663: [Sign up]Validate that the password is encrypted [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "Sign up" page on Iphone 11, iSO Version 16.1.1

#:	Step actions:	Expected Results:
1	The user introduces a password in the'Password' filed	The encrypted password is shown on screen
2	The user introduces a password in the 'Pasword(Again)' field	The encrypted password is shown on screen
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-664: [Sign up]Validate that the sign up can't be completed without filling the 'hCaptcha' field [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "Sign up" page on Iphone 11, iSO Version 16.1.1

The user copleatetd all the fields with valid data.

#:	Step actions:	Expected Results:
1	The user doesn't select the hCaptcha field and he presses the 'Sign up' button	An error message is displayed: 'Please prove you are a human'
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-665: [Sign up]Validate that user can't register a second time with the same credentials [Version : 1]

Author:	tunde.pipan
Preconditions:	

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the 'Sign up"page on Iphone 11, iSO Version 16.1.1

The user is already registered and the sign up form contains the previously registered data.

#:	Step actions:	Expected Results:
1	The user checks the hCaptcha field	The checkbox is selected
2	The user presses the 'Sign up' button	An error mesage is displayed: 'A user is already registered with this e-mail address.'
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-666: [Sign up]User validates that pressing the 'Sign up' button submits the form [Version : 1]

Author:	tunde.pipan
Preconditions:	

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

All fields are compleated with valid data.

#:	Step actions:	Expected Results:
1	The user presses the 'Sign up' button	The sign up was successful.
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-668: [Sign up]Validate that clicking on the logo you will redirected to the Homepage [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

#:	Step actions:	Expected Results:
1	The user presses on the Icon from the top left corner	The user is redirected to the 'Home page'
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-1197: [Sign up] Validate that the 'Username' lenght can't exceed 150 characters [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

#:	Step actions:	Expected Results:
1	The user enters 151 characters to the 'Username' field	The user is able to introduce only 150 characters to the 'Email' field
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	

Requirements	None
Keywords:	None

Test Case QA36-1198: [Sign up] Validate that the 'Full name' lenght can't exceed 60 characters [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

#:	Step actions:	Expected Results:
1	The user enters 61 characters to the 'Full name' field	The user is able to introduce only 60 characters to the 'Full name' field
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	

Requirements	None
Keywords:	None

Test Case QA36-1199: [Sign up] Validate that the 'CNP/CUI' lenght can't exceed 30 characters [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage and he is on the "SIGN UP" page on Iphone 11, iSO Version 16.1.1

#:	Step actions:	Expected Results:
1	The user enters 31 characters to the 'CNP/CUI' field	The user is able to introduce only 30 characters to the 'CNP/CUI' field
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	

Requirements	None
Keywords:	None

Test Case QA36-3252: [Sign Up]Validate that the user recives a confirmation message after registration [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed https://www.orasulbalan.ro/en/ webpage		
The user signed up on the webpage with valid data.		
#:	Step actions:	Expected Results:
5	The user checks if a confirmation message is shown on screen after the sign up	The confirmation message is shown on screen
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

1.1.2. Test Suite : Login

Test Case QA36-493: [Login] Validate the login using valid username and password [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed the https://www.orasulbalan.ro/en/ webpage on Iphone 11, iSO Version 16.1.1

#:	Step actions:	Expected Results:
1	The user presses the Burger Meniu icon	An expandable submenu is shown
2	The user presses the 'Sign in' submenu	The user is redirected to the 'Sign in' page
3	The user enters valid username in the 'Username' field	The 'Username' field contains valid data
4	The user enters a valid password in the 'Password' field	The 'Password' field contains valid data
5	The user pressees the 'Sign in' button	The user succesfully logged in
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-494: [Login] Validate that the login isn't possible with invalid username and password [Version : 1]

Author:	tunde.pipan

Preconditions:

The user accessed the https://www.orasulbalan.ro/en/ webpage on Iphone 11, iSO Version 16.1.1

#:	Step actions:	Expected Results:
1	The user presses the Burger Meniu icon	An expandable submenu is shown
2	The user presses the 'Sign in' submenu	The user is redirected to the 'Sign in' page
3	The user enters an invalid e-mail adress in the 'Username' field	The 'username' field contains an invalid e-mail address
4	The user introduces a valid password in the 'Password' field	The encrypted password is shown on screen
5	The user presses the 'Sign in' button	An error message is shown on screen : 'The username and/or password you specified are not correct.'
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-495: [Login] Validate that the login isn't possible with valid username and no password [Version : 1]

Author: tunde.pipan

Preconditions:

The user accessed the https://www.orasulbalan.ro/en/ webpage on Iphone 11, iSO Version 16.1.1

#:	Step actions:	Expected Results:
1	The user presses on the 'Burger Meniu" icon	An expandable submenu is shown
2	The user presses the "LOG IN" submenu	The user is redirected to the 'Sign In" page
3	The user enters a valid username without filling in the password field	Only the username field contains content
4	The user pressees the "SIGN IN" button	A tool tip with the text : "Fill out this field" is shown to the user next to the "Password" input.
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-496: [Login] Validate that the login isn't possible with a password and no username [Version : 1]

Author: tunde.pipan

#:	Step actions:	Expected Results:
1	The user presses the 'Burger Meniu" icon	An expandable submenu is shown
2	The user presses the "LOG IN" submenu	The user is redirected to the 'Sign In" page
3	The user enters only a password without filling in the "Username" field	Only the "Password" field contains content
4	The user pressees the "SIGN IN" button	A tool tip with the text : "Fill out this field" is shown to the user next to the "Username" input.
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-497: [Login] Validate that the login isn't possible using invalid credentials [Version : 1]

Author:	tunde.pipan

Preconditions:

Test Case QA36-1964: [Compatibility] Validate that the user can access the webpage using Linux OS [Version : 1]

Author:	tunde.pipan

Preconditions:

The testing is performed :

 Oracle VM Virtual Box -Linux, Mozilla browser

#:	Step actions:	Expected Results:
1	The user accesses the 'https://www.orasulbalan.ro webpage on browser	The webpage loads properly and the homepage is shown on screen
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-1965: [Compatibility] Validate that the user can access the webpage using Windows OS [Version : 1]

Author:	tunde.pipan

Preconditions:

The testing is performed on:

Laptop Lenovo, Windows 10 Pro

#:	Step actions:	Expected Results:
1	The user accesses the 'https://www.orasulbalan.ro webpage on browser	The webpage loads properly and the homepage is shown on screen
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-1967: [Compatibility] Validate that the user can access the webpage using Mac OS [Version : 1]

Author:	tunde.pipan

Preconditions:

The testing is performed on:

macOS Monterey, version 12.5.1

MacBook Pro

#:	Step actions:	Expected Results:
1	The user accesses the 'https://www.orasulbalan.ro webpage on browser	The webpage loads properly and the homepage is shown on screen
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

1.4.Test Suite : Performance Testing

Test Case QA36-1291: [Performance]Validat that the page load time is between 0-2s when accessed by one user [Version : 1]

Author:	tunde.pipan

Preconditions:

The testing is performed using jMeter

#:	Step actions:	Expected Results:
1	The user measures the page response time for 1 user request	The response time is between 0-2 sec (load time 325 ms)
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-1292: [Performance]Page load time is between 0-2s when accessed simultaneously by 10 users [Version : 1]

Author:	tunde.pipan

Preconditions:

The testing is performed using jMeter		
#:	**Step actions:**	**Expected Results:**
1	The user measures the page response time for 10 user request	The response time is between 0-2 sec (load time:780 ms)
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

Test Case QA36-1293: [Performance]Page load time is between 0-2s when accessed simultaneously by 100 users [Version : 1]

Author:	tunde.pipan
Preconditions:	

The testing is performed using jMeter

#:	**Step actions:**	**Expected Results:**
1	The user measures the page response time for 100 user request	The response time is between 0-2 sec (load time:1254 ms)
Execution type:	Manual	
Estimated exec. duration (min):		
Importance:	Medium	
Requirements	None	
Keywords:	None	

1.5. Test Suite : Localization testing

Test Case QA36-1042: [Translation menu] Validate that the user can see the Romanian translated content on the webpage [Version : 1]

Author:	tunde.pipan
Preconditions:	

The user acceses the 'https://www.orasulbalan.ro/en/ webpage on a mobile device, using Chrome browser.

#:	**Step actions:**	**Expected Results:**
1	The user pressesn on the 'Burger menu' icon	The burger menu icon changes to an "X" and the main menu, the language menu and social media section are shown on screen
